In reviewing sidewalks and connectivity planning in the city, the Decorah planning and zoning commission has recommended that residences which currently do not have sidewalks should be required to install them. The City Council concurred and asked that property owners be advised that a sidewalk needs to be installed on their property.

As a result of this action you will be required to install sidewalks on your property. The city set an August 1, 2018 deadline for installation of the sidewalk. If construction of the sidewalk is not completed by August 1, 2018, the city will install the sidewalk and you will be assessed for the costs of construction and installation.

If you have any questions, please feel free to call city hall at 382-3651. If you wish to appeal this decision you may do so in writing to the city council through the planning & zoning commission prior to their regular meeting on the second Monday of each month.

Thank you for your cooperation,

Chad A. Bird
City Manager
